HISTORY

Completed in 1910 at the tail end of the art nouveau movement, Arsenalsgatan 6 has had many incarnations throughout its lifetime, but it's initial role as a bank is what has left the most indelible mark on the building

The Bank Hotel started life in 1910 as the head office of the Södra Sverige Banking company. Designed as a bold, modern interpretation of a renaissance palace, architect Thor Thorén blended elements of art-deco extravagance with the traditional solidity expected of a bank's headquarters.

When bringing the hotel back to life, care has been taken to preserve all the original features, while presenting them in a fresh and modern aesthetic.
